

What can Gunlocke furniture do for you?

Entry level building certification for LEED CI requires that 40 points of the rating system be met. Did you know that furniture and seating can contribute up to 18 points, or 45% of the requirement? Choosing Gunlocke furniture can help earn those points.

LEED Categories Involving Furniture Contributions

Materials & Resources
Indoor Environmental Quality
Energy & Atmosphere
Innovation & Design

Materials & Resources

Construction Waste Management

MR Credit 2

INTENT

Divert construction waste from landfill

CAPABILITY

Packaging can be recycled with other on-site wastes. Volume avoidance calculations available for typical configurations.

POINTS 1-2

Recycled Content

MR Credit 4

INTENT

Increase demand for recycled content in products

CAPABILITY

Gunlocke casegoods, tables & conferencing are comprised of high recycled content.

POINTS 1-2

Regional Materials

MR Credit 5

INTENT

Improve local economies & decrease transportation

CAPABILITY

Gunlocke products are manufactured in Wayland, NY 14572. Projects within a 500 mile radius can be considered to utilize these points.

POINTS 1-2

Rapidly Renewable Materials

MR Credit 6

INTENT

Reduce depletion of finite and long-cycle materials

CAPABILITY

Stratawood™ veneer, standard on Silea™ casegoods, is made from FSC rapidly renewable plantation poplar.

POINTS 1

Certified Wood

MR Credit 7

INTENT

Encourage environmentally responsible forestry

CAPABILITY

Gunlocke offers FSC certified casegoods and conferencing tables.

POINTS 1

Indoor Environmental Quality

Low Emitting Materials, Systems Furniture & Seating

IEQ Credit 4.5

INTENT

Reduce indoor air contaminants from systems furniture and seating

CAPABILITY

Many of our casegood, conferencing and seating products meet the requirements of Option C using SCS Indoor Air Advantage™ certification, an alternate compliance path to Greenguard certification.

POINTS 1

Controllability of Systems – Lighting

IEQ Credit 6.1

INTENT

Promote individual control to promote productivity

CAPABILITY

Gunlocke can provide task lighting to suit individual occupant's needs.

POINTS 1

Daylight & Views

IEQ Credit 8.1 & 8.2

INTENT

Provide connection between indoors and outdoors for occupants. (75% or 90% spaces), (90% seated spaces)

CAPABILITY

Gunlocke can assist in the design of appropriate furniture application for contributions to these credits.

POINTS 1-3

Energy & Atmosphere

Optimize Energy Performance – Lighting Power

EA Credit 1.1

INTENT

Conserve Energy

CAPABILITY

Gunlocke task lights use high-efficiency electronic ballasts that can help to reduce required lighting power over conventional magnetic ballasts. More efficient LED task lighting is standard with Silea™ and Trio™ casegoods.

POINTS 1-5

Innovation & Design

 Gunlocke can assist with education & community outreach. These are a few ways to achieve points in this area.

NOTE: Gunlocke adheres to the FTC's Part 260 Guide for the Use of Environmental Marketing Claims and ISO 14021 to ensure that our statements of environmental impact are credible and verifiable.

Gunlocke Product Recycled Content

LEED-CI MR Credit 4

CASEGOOD PRODUCTS	TOTAL RECYCLED CONTENT		POST-CONSUMER RC		PRE-CONSUMER RC	
	TTL LBS	%	LBS	%	LBS	%
